Yeast

Your horse will enjoy our Supplets® from your hand or mixed into feed

We use organic chelated nutrients and high quality ingredients because all horses deserve the best!

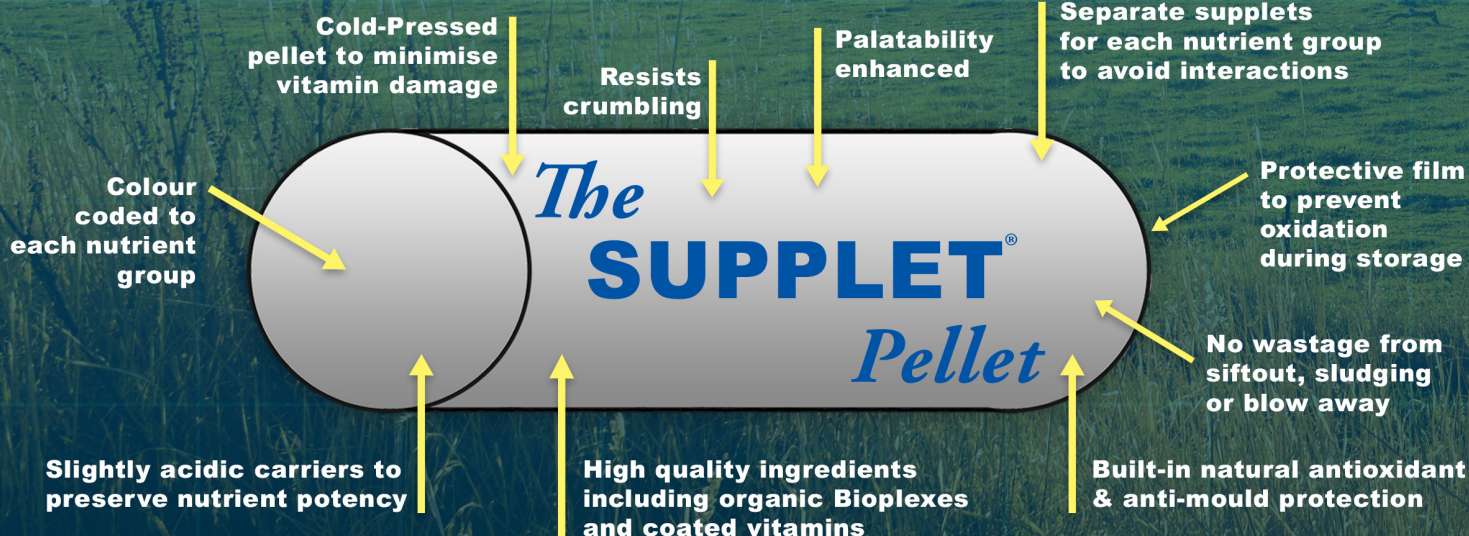

Balance a home mixed ration

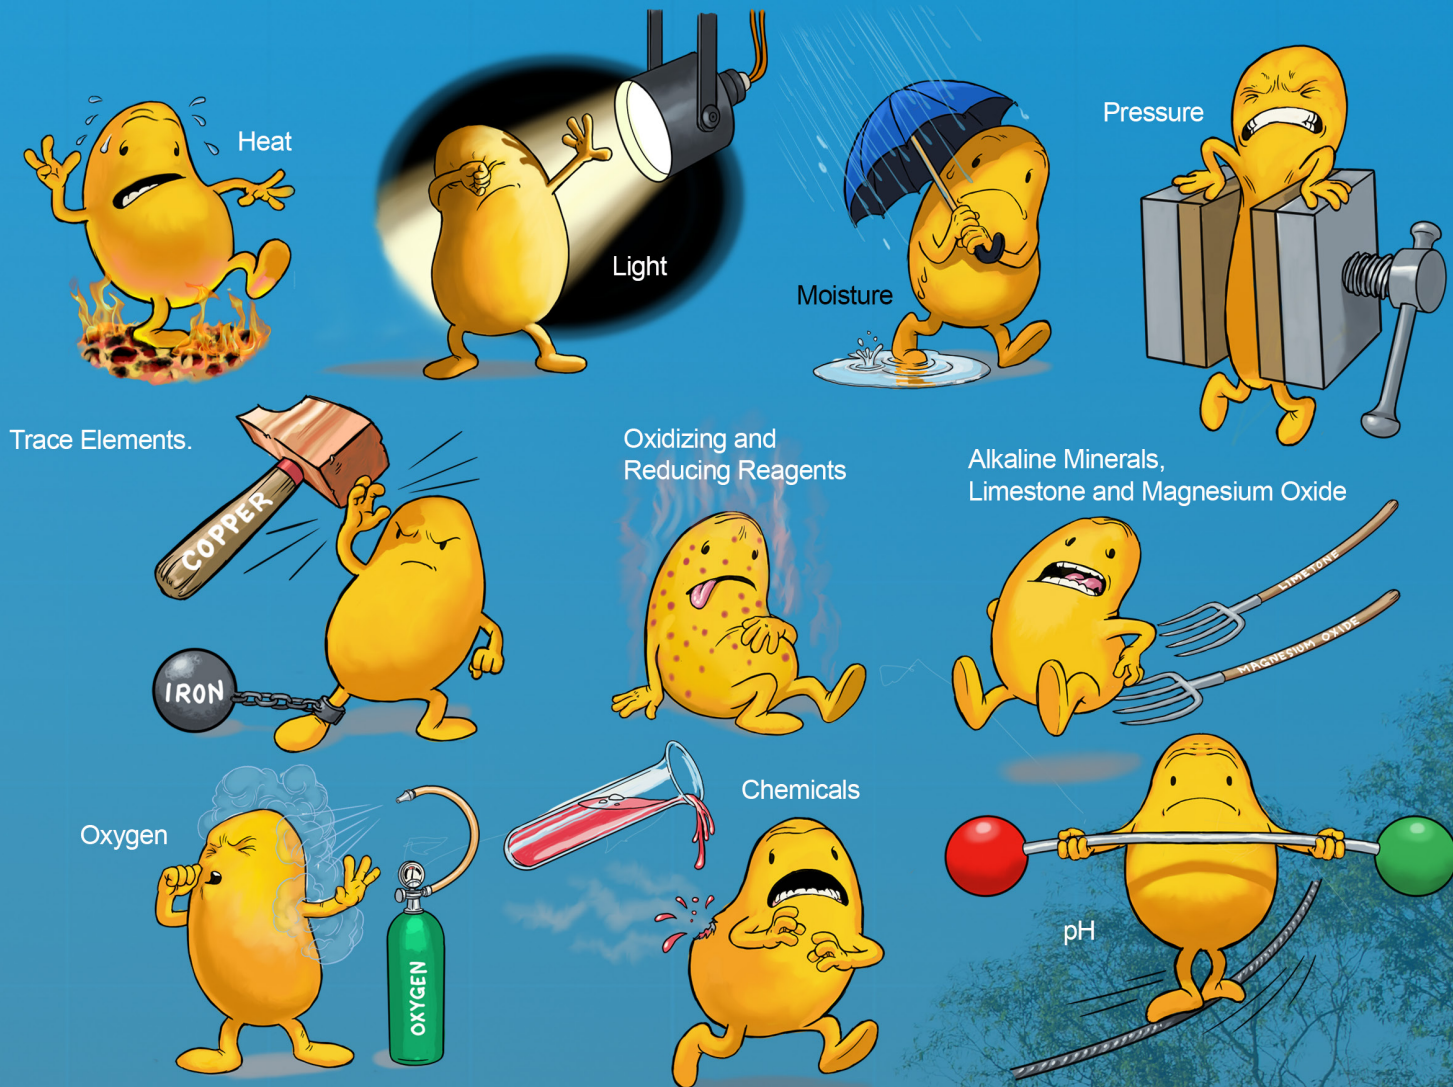

Correct a prepared feed base

Top up a complete feed diet

Supplets™ - the Ultimate Supplement Design

Vitamins are essential to your horse's health but are fragile and sensitive to supplement conditions.

Powdered, liquid and single pellet supplements are a flawed design that reduces stability and potency of vitamins.

Kohnke's Own Supplets™ are the only way to avoid interactions and protect vitamin potency and stability.

These patented, separate groups of compatible nutrients are the perfect supplement for all horses!
